Contents of Volume 46

Number 1

1 Guest Editorial
R. BILLINTON (Canada) & R. N. ALLAN (UK)

3 Power System Reliability Assessment—A Conceptual and Historical Review
R. ALLAN (UK)

15 Evaluation of Reliability Worth in an Electric Power System
R. BILLINTON (Canada)

25 Bulk Power System Reliability Performance Assessment
C. C. FONG (Canada) & C. H. GRIGG (USA)

33 Reliability Assessment of Hydro-thermal Composite Systems by Means of Stochastic Simulation Techniques
J. ROMÁN UBEDA (Spain) & R. N. ALLAN (UK)

49 New Trends in Power System Planning and Related Effect on the Reliability Evaluation
O. BERTOLDI, A. RIVOIRO & L. SALVADERI (Italy)

63 Substation Reliability Evaluation: A Specific Tool for Designers
E. BOURGADE & T. DESMAS (France)

75 Electric Power System Customer Interruption Cost Assessment
G. WACKER & G. TOLLEFSON (Canada)

83 Probabilistic Assessment of Spinning Reserve in Isolated and Interconnected Generation Systems
N. CHOWDHURY (Canada)

93 Utilisation of Quantitative Reliability Concepts in Evaluating the Marginal Outage Costs of Electric Generating Systems
R. GHAJAR & R. BILLINTON (Canada)

101 Stochastic Production Cost Simulation
A. M. BREIPOHL, F. N. LEE & J.-Y. CHIANG (USA)

109 Progress Towards Integration of Reliability Concepts in a Segregated Electric Utility System
B. SIMPSON (New Zealand)

113 Calendar

Number 2

115 Bivariate and Trivariate Normal Integrals in Affine Space with Applications in Structural System Reliability
T. ZHU (China)

123 Tools for Software Safety Analysis
J. BRUMMER, M. KERSKEN & J. MÄRTZ (Germany)

139 Robotic Fault Detection and Fault Tolerance: A Survey
M. L. VISINSKY, J. R. CAVALLARO & I. D. WALKER (USA)

159 Reliability-based Design of Automotive Transmission Systems
S. S. RAO & M. TJANDRA (USA)

171 Limit Reliability Functions of some Non-homogeneous Series-parallel and Parallel-series Systems
K. KOŁOWROCKI (Poland)

179 The Classes of Asymptotic Reliability Functions for Series-parallel and Parallel-series Systems
K. KOŁOWROCKI (Poland)

189 Optimal Replacement Schedules in a Queue-like Production System with Minimal Repair
L.-F. HSU (USA) & S. KUO (Taiwan)

199 Apology

201 Calendar

Number 3

203 **Guest Editorial**
On Merging System Safety and Quantitative Risk Assessment
E. M. DOUGHERTY JR (USA)

209 Probabilistic Reasoning Based on Dynamic Causality Trees/Diagrams
QIN ZHANG (People's Republic of China)

221 Failure of Emergency Diesel Generators: a Population Analysis Using Empirical Bayes Methods
W. E. VESELY, S. P. URYASEV & P. K. SAMANTA (USA)

231 Determination of the Most Reliable Path of a Planar Flow Network
DONG WHA LEE & BONG JIN YUM (Korea)

237 The Use of the Component Influence Graph to Reduce the Size of Markovian Availability Problems
J. DEVOOGHT & B. TOMBUYSES (Belgium)

245 Studies on Optimum Condition–Monitor Cycle Time Policies with General Repair Result
HAI-YAN GU (People's Republic of China)

253 A New Approach for Measuring Uncertainty Importance and Distributional Sensitivity in Probabilistic Safety Assessment
CHANG K. PARK & KWANG-IL AHN (Korea)

263 On the Uncertainty of a System Reliability Estimate
B. LINDQVIST (Norway)

271 On the Concept of Perfect Aggregation in Bayesian Estimation
V. M. BIER (USA)

283 **Technical Note**
Nearly Minimal Disjoint Forms of the Abraham Reliability Problem
M. O. LOCKS (USA) & J. M. WILSON (UK)

287 **Letters to the Editors**
Aggregation Error. So What?
C. A. CLAROTTI (Italy)

289 Response to 'Aggregation Error. So What?'
V. M. BIER (USA)

291 A Note on HRA at PSAM-II
E. M. DOUGHERTY JR (USA)

295 The Cohorts Reply
D. C. BLEY & J. WREATHALL (USA)

297 Errors, Outcomes and Circumventions: a Reply to Dougherty
J. REASON (UK)

299 Calendar
